**Production Place:**

### **Description:**

Platform curved upward at either end. Has a grooved channel in the centre and liner grooved decorations at either flattened end. Lugs are open arches facing front. Two pillars rest on the back of a elephant that stands on its four legs. It has a trunk and one tusk - the other has been broken off. Its legs flare out at the foot region near the bottom. It has a tail that is flattened on its sides. Eyes are roughly diamond shaped
